

How to Read from your Flash Drive

- Plug in your Flash drive
- Left click on the *start* button
- Go to *my computer* and right click
- Left click on *manage*
- Left click on *disk management*
- Right click on *Disk* or *Disk 1*, it may be identified by saying it's removable and should also state the storage capacity which is 2 gb
- left click on *change drive letter and paths*
- left click on *change* and select any other letter than "c", "d", or "e"
- Left click on *OK* and you should be done

This should allow you to read/save data on your USB drive.
