See you there!

What is College Changes Everything Month?

The U.S. Department of Education has officially moved to early FAFSA, and students will be able to file their 2018-19 FAFSAs beginning October 1, 2017. Since the FAFSA will be available at the same time students will be completing their college applications, the Illinois Student Assistance Commission (ISAC) has launched College Changes Everything® (CCE) Month. During CCE Month, ISAC, high schools and community partners across the state will offer support for both college application activities and FAFSA completion.
