COVID Update Message to Parents

8-23-2020

A student who was in attendance at Hillsboro High School on Wednesday, August 19, but not on Thursday or Friday, received a positive COVID-19 test result on Saturday. We immediately put our contract tracing plan into action. The student's teachers and High School administration supplied the Montgomery County Health Department with all the information they needed to determine which students and staff should quarantine due to possible exposure from prolonged close contact. The result of this contact tracing investigation was that 17 students, but no staff members, will need to quarantine for 14 days. Every student who needs to quarantine will be contacted by the Montgomery County Health Department today, Sunday, August 23, and will be provided with additional information.

School will resume as planned on Monday.

We are committed to providing our students and staff with a safe and healthy environment. Thank you for your understanding and ongoing cooperation with our COVID prevention policies and procedures as we work to help protect our students, staff, and families. For any questions or concerns, please contact us at (217) 532-2942.

The Hillsboro Community School District fosters a student-centered culture with high expectations for each student to reach his or her full potential.
